

Electric tractor Bigà APE 3t 100% made in Italy

Small tractor, towing capacity 3000 kg. Size cm 140L cm 90W cm 200H. Solid tires superelastic plus diameter 30. External battery charger and flashing lights included. 1100 W gearmotor 24 V with electric brake. Tow hitch. Autonomy 6/8 hours. Control 350 A. turbo insertion lever for particularly demanding climbs. Four batteries gel 140 A, with possibility to mount 6 batteries for 420 A and greater autonomy. Two basic versions without cover and with polycarbonate 4 mm curved cover. Tow hitch.

With the control as 350 A and with tube inserted salt 1000 kg mass to 15% slope

ELECTRICAL TRACTOR Bigà 3 ton APE TECHNICAL DATA SHEET

Dimensions: Length mm 1400 Width mm 900

Height 2000 mm Minimum height from the ground mm 54

Weights: Kg. 372/442 plus driver

Gearmotor: 1100 W – rpm 120 24V permanent magnet motor

With switchable electric brake with lever.

Control: electronic control unit 24 W Mosfet technology – 350 A.

Direction of travel: forward and reverse lever

Voltage and batteries: N. 4/6 batteries 12V 140 A C20 sealed gel.

External charger 36 V power. 24V – 12 amps – electronic.

Brakes: Drum front. Emergency stop electric brake.

Engine brake powered with control unit parameters.

Tires: Covers: 4.00-4 super elastic solid rubber.

Speed and tow: max 6/7 Km/h +/-10%-towing 3000 kg flat surface
towing 1100 Kg on slope 15%.

Structure: Tubular and Fe 37 metal sheet.

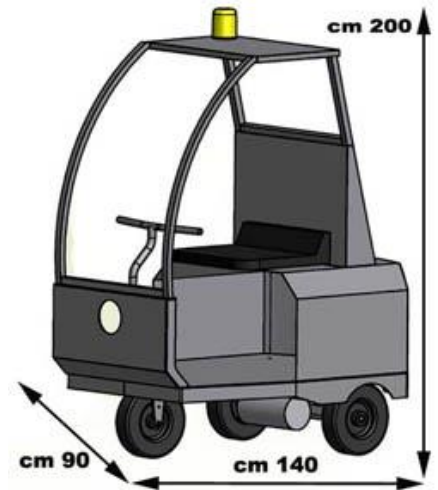

Paint: Epoxy powder for outdoor.

Devices and lighting: lighting and signalling main headlight and taillights. R Buzzer

Horn – Flashing light E 24 xenon – recharging indicator – emergency button disconnecting battery – Turbo lever for high performance. Possibility of Triple Pack of batteries 420A.

Spare parts and tools: original spare parts and tools for maintenance and repair are provided on order by Bigà Italia srl.

Noise Values: max. values $L_{pAm} = 77.6$ – $LWA = 85.6$ – operator position $L_{eq}(A) = 77.6$
