

Pusher Hauler

Bigà **PUSH**

Bigà Push and Bigà Push kit: hauler pusher with infinite applications enables a single person (man down) to drive all kinds of carts with a weight of 2,000 kg. Our robot with radio command can tow or push various models of carts: supermarkets, shopping malls, airports and with maximum convenience to move the beds of hospitals including stretchers and wheelchairs.

Weight: kg 120/150/second application ■ Gear motor 24 V-600 W 85 rpm
 with power brakes with manual release
 N. 2 GEL batteries-12 V Capacity: 140 Ah C20-105 Ah CS 24 V-12 A high frequency Charger S-power supply 220 V.
 Electronic control Mosfet technology 24 W-140A
 Ignition key
 Battery charge indicator
 Emergency mushroom button battery detachment
 Flashing light E24 xenon
 Operation buzzer
 N. 2 300-4 Tires 6 canvases with inner tube or super elastic and aluminium rims
 Speed +/-4/6 km/h
 Lift capacity normal work 500/2000 kg autonomy 5 hours continuously
 Flashing and buzzer always on with cart working
 On request: A) 2-speed lever 4/6 km/h B) electric motor brake release
 Technical data EC control group
 Stop-and-Go forward/backward functions industrial radio remote control with battery charger protection
 transm./rec.: IP67
 Working temperature -20/+55° C range 150 m.
 Operating frequency ISM band: 868,0125-869,9878 MHz
 Category 1 stop
 LBT Technology
 Autonomy at 20°C: approximately 50 hours. Transmitting apparatus: AT MITO- MINI Receiving apparatus: AR MITO-
